PURPOSE OF DEVELOPMENT CHARGES

Development charges assist in financing capital projects required to meet the increased need for services resulting from growth and development. Development charge funds may only be used for the purpose for which they are collected.

BACKGROUND STUDY

The Development Charges Act, 1997 and Ontario Regulation 82/98 require that, prior to the passing of a by-law a development charges background study be undertaken, with reference to:

- The forecasted amount, type, and location of future development
- The average services provided in the Township over the 10-year period immediately preceding the preparation of the background study
- Capital cost calculations for each of eligible development charge service
- An examination of the long-term capital and operating costs for the infrastructure required to service the forecasted development.

Watson & Associates Economists Ltd prepared the Development Charges Background Study for the Township dated April 5, 2024. The study served as the basis for the development charge rates approved by the Township on June 19, 2024, through By-law 30-24.
