---

Dear Michael Wilhelm,

In accordance with the policies and procedures established under the *Aggregate Resources Act* (ARA), the Ministry of Natural Resources (MNR) Aggregates Section has reviewed your licence application (#626649), including the draft site plan and related technical reports. At the conclusion of the initial notification and 60-day consultation period, the Ministry submitted official comments on the application, as outlined in our November 8, 2024, letter.

MNR appreciates the project team's attention to our comments on the application. We have reviewed the project team's responses to our comments, including but not limited to the response from Groundwater Science Corp. (March 27, 2025), the updated Woodland Restoration and Rehabilitation Plan (January 8, 2026), and the revised site plan (pages 1-3, dated January 13, 2026 and pages 4-5 dated January 14, 2026).

Please note that the responses and the revised site plan have addressed the Ministry's outstanding comments with the subject licence application.

If you have any questions, or require additional information, please contact me at [david.marriott@ontario.ca](mailto:david.marriott@ontario.ca).

A handwritten signature in black ink, appearing to read "Dave Marriott".

Dave Marriott
